Predator Software is evolving to help you better meet your manufacturing needs.

Shop floor performance and production center demands are changing the way we do business. This, combined with rapid advancements in technology and communications, have made the pressures to deliver more efficiently even greater.

Like you, we feel the impact of these changes and are responding. Predator is addressing your manufacturing challenges head on with a line of products that address the demands of automating the shop floor and improving your profitability.

For you, this means products that grow when you grow and work when you work. It is products that

are integrated and intuitive to learn. And it is products that are priced right. For us, this means an opportunity to provide you with innovative products and a business partnership worth investing in. It is an opportunity to put our best foot forward and show you why we are an industry leader setting new standards and challenging our competition to perform.

Feel our momentum? You should. We're moving in the right direction, fast. But better yet, see our products, see how they will change the way you do business and the way you improve productivity. Call today at +44 (0)1638 780902 or visit us online at [www.predator-europe.com](http://www.predator-europe.com) for more information. Get in gear now.
